FIRST LUSITANIA SURVIVORS AND VICTIM BODIES ARRIVE IN AMERICA

New York, May 27. With her flag at half-mast the American liner, New York, arrived in this city bearing the bodies of nine victimse of the Lustiana disaster and one survivor of the

The Carl E. Foss, a physician of Harlem. Montana, who was on his way to enlist in the Brits ish Red Cross when the liner went down bitterly condemned the Officers of the Cumard liner for the reduced speed at which the heat was going throughout the war zone, and at the time when she was torpeduced. He also errifeized in strong terms the action of the stewards and crew in neplying themselves with life preservers instead of assisting the women and children to obtain

Among the bodies on board, the New York was that of Charles Frohman, well known thentrical man. The picture shows the body of Charles Frohman being carried from the steamship to the waiting bearse. The flag desped and flower laden coffin teally for the first time brought to this city the realization of the awful nature of the disaster. Insert is of Dr. Carl E. Foss, who bitterly criticizes the manner in which the skip was managed both before and after the striking of the German torpeds which sent her to the bottom.

NINE FISHERMEN

Lose Lives When Storm Arises Off Charleston.

Charleston, S. C., May 29, Sinc fishermen are known to have drowned and it is thought that others also perished off fishing fleet of smacks launches went our this morning. the weather conditions then not indicating that a storm would develop. Returning fishermen report that the waves were very high and the wind blowing pass the rate of sixty miles an hour. Name of the budies have been reovered, the surviving fishermen having all they could do in get ting buck to port. It is stated that all the drowned men were negroes.

MEXICO AND DRINK

"Pancho" Ville, the Mexican leader, has declared for prohibition. Forest-ally he is a total abstalant and does not even smoke. In an interview recently be announced; "Megico will be without itquor when peece counce if it is in my power. Mattice is suffering from it now. It is not only the effect of the drink upon diago who drink it, but the effect upon those who are to came. Most of the effective to came in but the effect upon those who are to some. Most of the efficient is satisfied by dramkenness. The deliging to satisfie the efficient and, as wond, the percentage the most from it. The proposit of a people might not be a dragher kinest. It is proposed to play with poteon be in charge in the most to be a dragher kinest. It is not to be a dragher kinest. It is not to be a dragher kinest. Naw York, May 27.—Although the officers. It is also then the Giants won a pitcher's battle at Perth Amboy on Sunday last the second. Some of my than here been by the score of 3 to 0, they lost the pervices of Fred Merkle again.

MERKLE'S NOSE BROKEN IN MINOR LEAGUE GAME.

In the second inning Merkle suffered a broken nose when he was bit by a thrown ball in a run down between first and second. Merkle attempted to steal econd, but the throw had him beat by yards. He turned back and in the exchange of throws which followed Merkle was hit on the nose;

tme begönis zemeraticu. Ex-President Taft and his two sons. Robert W. and Charles P., differ deeldedly on the prohibition question. yes-Webb bill as unconstitutional, Robert W. Taft, his eldest son, pub-lished in the Harvard Law Review an article showing that his learned fath-er was wrong in his conclusions, Quite recently the ex-president has given public expression to his opposition to state-wide and hation-wide prohibi tion, but his son, Charles P. Taft, a member of the Yale trie which met the Syracuse university team in a freshmen debate on state and national prohibition, atoutly defended prohibition and took the stand that prohibi-tion laws have been successful where ther have been given a chance, citing copecially Maine and Kansas

DISPLACE DRINK WITH TEA.
The rapid increase in dry territory in the United States has consisted in a shortage of tea, according to George P. Mitchell, supervising tea Inspecto of the treasury department. The price of ten is advancing steadily. Russia, the greatest ten-drinking sation in the world, is expected to consume even more ten as a result of the eray's or-der abolishing the sale of interjenting isquers, particularly volta, in that empire. Russian soldiers in the treaches are given ten so n part of their rations at the present time.

about the right size to play mar-"Perhaps it would send you to bles with. Some man with a lot better than they were, and adapted to gutta percha ato he sat up burning the midnight machs, but it would kill off the oil, trying to find the way to improve them. He finally succeeded, and the oranges we buy now brighter and better.

"All the old-time blemishes and shortcomings have been bred aut of them. Even the seeds ter today than it was when our have been banished, and when parents flourished like green bay you pay four cents for an orange trees, or bay greentrees, as you today, you get better value than you used to get for a quarter. "We had sweet corn for din- The modern orange has such a ner at our house today, and it line flavor that it makes the conwas perfectly luncious. It had a sumer forget all his troubles. It flavor that permented a man's is large enough and juicy enough being from his shoe lases to his to take a both in, if you prefer sweathand, I don't know of external treatment, and the rind anything finer than the sweet doesn't use up three-quarters of

"The things our mothers used perimenting for many years try- to cook are grossly overestimated ing to improve it, and they have We often hear people may they made it perfect. I don't see any would mortgage their homesteads room for further improvement, for a cup of coffee such as their It is a food for the gods, who mothers used to make, but if they must be tired of their predigest had a cup of it they would ask to have it angar coated or placed I have no doubt that there are in a capsule, before they would people in this country who sat weatlow it. The business of this excellent sweet corn and roasting coffee has been reduced to a science; in the days of our parents it was a catch-as-catchyoung, the kind their mothers can proposition. The coffee was cooked. But in those grand old roasted in the oven of the kitchdays we used to eat ordinary on stove, and it was scorched to a erim or under-done, hine times out of ten.

"Our mothers used too much greame in all their cooking. The women of the present era use too much, for that matter, but they don't use half as much as their mothers did, and in another gencars were all nubbins, and they eration grease will be used as tested a few degrees worse than sparingly as salt Everything is getting better all the time, my friends, except eigers. I don't everything we set. I communed know that I ever smoked a worse an orange this afternoon, and as sample of alfalfa than this one, I fed it into my person I thought for which I spent a hard-carned with some emotion of the oranges nickle with our friend the drug--Walt Mason.

AND LOOK YOUNG

Sobody Can Tell When You Darken Gray, Faded Hair With Sage Ton.

Grandmother kept her hair beautifully darkened, gross, abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old time recipe. roady to use for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itehy scalp and falling hair.

A well known downtown druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too.
You simply dampen a comb or soft brush and draw it through your hair, taking one strand at stime. By morning the gray dreene's 10c Store has just respication or two, it is restored seived 120, fresh from the part of the state of the state

REAL-ESTATE NEWS

(By SMITH & MORGAN.) One of the results of the recent State Sunday School Convention in Dothan bet been a number of inquiries about real estate, from those who became interested while here. We are accumulating quite a list of them. Several days ago we Published a letter from a gentleman, saying he would be down soon with a view of buying a place and would bring a bunch of others with him. And these inbuiries have been from all sections of the state. We pick out the following from Huntsville:

Huntsville, Ala, Smith & Morgan, Dothan, Als. Gentlemen:

I attended the Alabama State Sunday School Convention at Dothan and was much impressed with your section. I will appreciate it very much if you will send me a list of your farm lands you have options on and prices of

Very truly,

Recently we wrote to a party who lives in another State and who is owner of a piece of sreal estate in Dothan, asking him if he wished to sell his property. We quote from his reply as foilows:

"I will sell at my price but am not anxious to sell at that. I have faith in Dothan's future and believe money invested in that way is better than having it in a bank." Believes in Dothan, doesn't

We went to a picnic recently, and before leaving thought we would take along a sup. ply of Smith & Morgan tooth. picks to hand around after everybody got through eating fried chicken and ham. Every one seemed glad to get them and one lady remarked: "Well I declare, here is a Smith & Morgan advertisement; you see them everywhere." We appreciated that remark. We want you to see and read our advertisements; to think of real estate when you see our name, and think of us when you see real estate.

If you are figuring on buying either a house, building lot, farm,-no matter whatwe call your attention to the fact that the summer will soon merge into fall, and you cannot expect to buy this fall at prices that we have had on some property this spring and summer. At present we have several real estate bargains. These are real sacrifice sales but we are not at liberty to advertise in detail. Tal it over with us. We may have just what you want. We know Dothan real estate and are at your service.

ADVERTISE IN THE EAGLE AND

INTERNATIONAL HARVESTER

Why Do We Sell International Harvester Engines?

WE recommend and sell International Harvester oil and gas engines because of the universal satisfaction they give to our customers. The weight is satisfaction they give to our customers. The weight is ample and is in the right place; the castings are sand-cooled, insuring evenness of texture and strength; the design of every part is of the most approved type; simple, yet complete in every detail; easy to manage, requiring little attention beyond regular olling; developing from 10 to 30 per cent more than their rated horse-power. I H C angines of all sizes make friends wherever they go.

This series of advertisements will explain fully why I H C engines are such good value. One or two features will be taken up at a time, so that when you are through with the series you will be well posted on engines. All the time these advertisements are running we shall have a demonstrating engine on the floor bern, ready to show you what to expect for your money when you buy an I H C engine.

DON'T USE SOAP ON YOUR HAIR

When you wash your hair, don't use soap. Most soaps and prepared shannoos cantain too much alkali, which is very injurious, as it dries the gealp and makes the hair brittle.

The best thing to use is just plain unbsified coccanut oil, for this is pure and entirely greaseless. It's very cheap, and beats soaps or anything else all to pieces. You can get this at any drug store, and a few onnees will hast the whole family for mentls.

Simply moisten the hair with water and gub it in, about a teaspoonful is all that is required. It makes an abundance of eich, creamy father, cleanses thoroughly, and trinses out easily. The hair dries quickly and evenly, and is soft, fresh looking, bright, fluffy, wavy, and easy to handle. Besides, it loosens and takes out every particle of dust, dirt and dander?
